Rules and instructions for Ludo

https://www.youtube.com/watch?v=lns9TeKVebY&ab_channel=Mr.Animate

- Ludo is a fun, family-friendly game for 2-4 people.
- Each player has 4 tokens. Whoever gets all four tokens to the home (in the center of the board) first is the winner.
- A token can only move out from your base and start if a six is rolled by that player.

It's a 6!! I
can start my
game

- When a player rolls a six, they get another turn to roll the dice.
- If a player rolls a six, he can choose to move out the inside token or move the token which is outside.
- If a player rolls six three times in a row, their turn is then skipped.

Too lucky to be unlucky 😭

- If a token crosses the finish line, that player gets another dice roll.
- If a token kills opponent's token, the capturing player gets another turn.

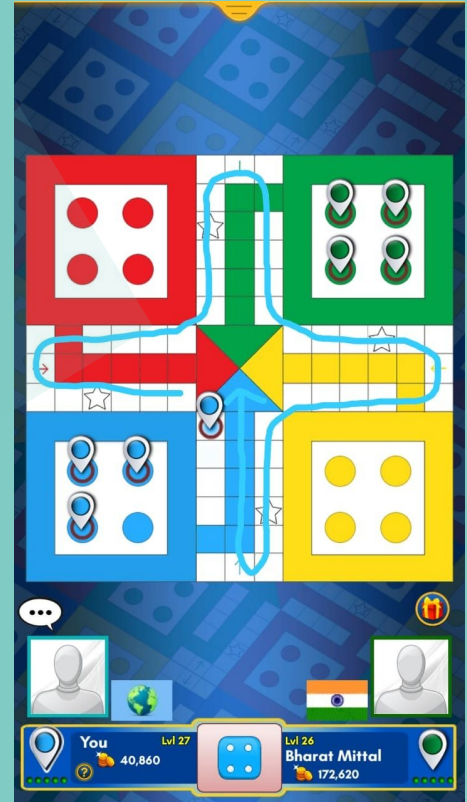

It's killing
time 🐘
FASAK!!

- There are eight safe squares on the board (they are colored squares and starred squares).
- The tokens must exit each player's base and move around the board to win.

Brace yourself!!

The journey to home is not going to be a cakewalk!!

Its Ludo time!

Roll your dice 

Move your piece !!!
